RE: FULCRUM FLOORING - THE LEONARDO

This letter serves to confirm that we highly recommend the services of Fulcrum Flooring.

They have assisted us greatly in rectifying the challenges which we experienced at The Leonardo in Sandton. The uneven conditions of the concrete made it impossible to successfully lay our specified floor coverings.

Fulcrum Flooring were contracted to assist with the rectification. Sydney Little and his team were professional. Their methods, equipment and manpower that they used to deal with the challenges faced, resulted in the works being executed on time and to satisfactory accuracy.

As part of the service provided, they surveyed the undulating concrete surfaces and prepared the surfaces by means of grinding with the correct equipment and then levelling out the undulations with a screed system over 10 000m².

Please contact me should you require any more information.

Regards

Francois O'Kelly
