To whom it may concern

The Southern Medical Group (Pty) Ltd occupied a new head office facility comprising of 5000 sq.m of mixed use space in Route 21 Corporate Park at the end of 2021. We utilized the services of Fulcrum Flooring for the floor finishes. Office spaces received laminate flooring; storage spaces - vinyl flooring; cleanrooms - epoxy flooring and manufacturing areas – Gerfloor tiles.

The service rendered was timeously and professionally executed and we can recommend Fulcrum for floor finishing. I would be happy to be contacted should anybody need further information.

Regards,
